

# TALKING TO YOUR TEEN ABOUT E-CIGARETTES, VAPING AND MARIJUANA

## FREE Family Education Night:

Parents and Middle and High School students are invited to learn:

- Current teen trends with e-cigarettes, vaping and cannabis use.
- The health risks involved with e-cigarettes and vaping and how companies target youth.
- The health risks involved with cannabis use, including how increased THC levels in cannabis plants, edibles and concentrates may impact youth brain development.

**Questions?** Contact Marlene Mahurin, TUPE Project Coordinator 530-478-6400 x2031 or [mmahurin@nevco.org](mailto:mmahurin@nevco.org)

Brought to you by:

Nevada County Superintendent of Schools  
Tobacco Use Prevention Education (TUPE)

Today's teens are exposed to a variety of new drugs that simply didn't exist when their parents were teenagers.

Together, parents and students will learn the potential health risks of teen vaping and cannabis use and ways to make healthy choices.

**\*Dinner will be provided.**
