40 Assets Tip – Goals

Setting specific goals can help both individuals and families get to where they want to be. Goals must be realistic and achievable in a time frame appropriate for age and skills, so that progress can be seen and praised.

Become an astronaut in 6 months? No, but read or explore two articles/books from the library in 1 month is doable. Conversations with your children's full participation will point the way. [Builds on 5 of the 40 Assets]
