

*What are the greatest needs and opportunities affecting Nevada County youth?*

<b>Basic Needs</b>	<b>Equity &amp; Inclusion</b>	<b>Ensuring Access</b>	<b>Trauma-Informed Community</b>	<b>Protective Connections</b>	<b>School Wellness Resources</b>	<b>Youth Voice &amp; Choice</b>
Addressing Poverty	Addressing Racism	211/Connecting Point	Trauma-Informed Education	Healthy Mentors	School Wellness Centers	Youth voices at the table
Housing	Culturally-Appropriate Providers/Services	Road Map to Services: Where to start?	Trauma-informed community promotes resilience	Create more positive social interactions	Increased school resource personnel	Engage youth expertise throughout community
Food	LGBTQ+ Focused Services	Destigmatized Resource Access	Trauma-Informed Care	Reduce Isolation	Resource Centers in school	Youth-led forum to inform practice
Transportation	Disability Awareness	Reduce Stigma	Secondary Trauma Wellness Education	Mitigate stressors	Primary prevention (primarily)	
Accessing Educational Training		Include all communities including Truckee	ACEs & Depression Screening	6:1 ratio of adults to kids		
Climate Change & Disaster Preparedness			Targeted intervention (not random acts of intervention)	Include elders (volunteers, mentors)		
			Early Trauma-Informed Care (prenatal, ECE)	Connection multiple generations		
			Trauma-Informed foster/resource families	More local foster homes		
			Targeted intervention to specific populations based on data			

<b>Collaboration</b>	<b>Holistic Wellness</b>	<b>Comprehensive Mental Health Resources</b>	<b>Healthy Recreation</b>	<b>Caregiver Support</b>	<b>Harm Reduction</b>
Focused collaboration with actionable outcomes	Whole person care throughout life	Overnight respite for youth	Rec Center	Parent education and outreach	Harm reduction instead of prohibition
Collaboration & leveraging resources	Holistic approach	Mental Health Crisis Stabilization for Youth	Community-based after school programs	Stigma-free caregiver support	
Public/Private Partnerships	Wraparound-Village approach	Increased early childhood mental health support	Gaming/social media education, awareness, addiction	Parent education, support and engagement	
Utilize shared expertise	Social Emotional Learning	Early intervention	Decrease Screen Time		
Partnering for mental health care		Start prevention earlier	Natural environment = healthy activities		
Amplify strengths of community		Minor consent to mental health services			
Transparency re: funding opportunities		Money for early intervention, prevention and treatment			
		Coordinated mental health services			
		Lower Medi-Cal threshold from severe to moderate mental health services			
		Greater access to age-appropriate counseling			
		Access to mental health services (managed care referrals)
