Coordination of services with other agencies/organizations	2.947368421

# Which current CSN information-sharing activities are helpful to you/your organization?

---

# Which current CSN coordination efforts are helpful to you/your organization?

---

# What are ways information sharing could be more helpful?

---

A better format for emails - for instance, the last email was no bcc'd. Can you move to a Mailchimp or other list-serve model?  
I would love to see the info provided by this collaborative be more cutting edge - really push the envelope.

A more personal user friendly approach on the Nevada County Website. Current names and numbers of whom to call for specific needs.

Be more action focused- bringing people and organizations together to tackle some of our biggest needs, one step at a time.

Bringing in experts who are up-to-date in their field

Can't think of anything at the moment

Finding out about trainings at least a month in advance is most helpful

have a way to refer parents and care givers

I love the inservice trainings of what services are available for each topic in our community

I would like to see more things aimed at specific populations... if I were selfish, that would be teens, accessing mental health (for real) when behavioral health is overwhelmed (other options), recreational and other resources for teens in the community (jobs, sports, summer programs, internships, etc.), drug and alcohol services directed at teens specifically, overall family resources for mental health.

Lots of Orgs info included and include links to more info so that each item on the Newsletter can be brief.

More interesting topics for meetings

More networking

More networking and dialogue.

more opportunities to attend educational events for Be the One

More participation and directed conversations about service coordination

Publicize Carnival (5/20) and Festival (7/17) to children. Assist in selecting local Charities.

There needs to be more follow-through and updates to the community about new services provided.

Try to get more community members to attend the local meetings.

unsure

You all do great! I think it might be nice for everyone to present for 15 minutes once a year about their organization, what they do and how they plan to expand outreach more this year...?

# What are barriers for you/your organization to attending Partner meetings?

---

3-6 pm is the busiest time for children's mental health service providers, so we often miss the meetings

Childcare

Conflicts with First 5 Commission mtg

Crazy schedules (like the rest of us!) and having to triage which are the most important. I appreciate being able to send other staff at times and I think that you have a good time set for it. Thanks for this question!

distance from Sacramento!

double bookings

everyone is so busy

Focusing on the consumer.

Having the time to get away from the office with all the needs our organization has and juggling that time away with other meetings.

I make it priority but occasionally my workload gets in the way

None

None.

Sometimes a representative from our agency will attend and fail to share out with other staff members.

Staff's limited time

The timing of the meeting doesn't always work for my schedule, but when it does, its enjoyable and informative and a great place to network with other agencies and learn what each one does from the employees who do it, day in and day out.

time

Time

time constraints

timing

Timing - end of the school day is bad for me.

timing and relevance

Too busy with small amount of staff, but we try to attend when topics are particularly relevant to Food Security.

Too many meetings due to involvement in may local non-profit organizations.

Too many meetings for the directors to attend but they are the ones who best communicate their programs, costs, statistics, etc. Community members like myself could get more involved and carry the information out to the community. More media coverage is needed.

# What are barriers for you/your organization to sharing information through CSN?

---

(Good Point) We need to appoint a member to be our CSN Representative.

Forgetting to send info

n/a

NA

No barriers

none

none

None

None

None

none

None - always felt information I provided was well distributed. Thank you.

None.

None. I have had a pleasant experience working with CSN.

None. You've been responsive the few times we've requested you include a particular announcement for us in your Newsletter.

time

time

Time. I'd like the speakers to be filmed, and everyone in the agencies and public to have access to it.

# What are barriers for you/your organization to participating in CSN campaigns or events?

---

Communications - need to request our assistance for volunteer support.

Limited staff availability

Lots of things happening across the county---always. Trying to be strategic and wise about what our organization needs during this time/this season/this entry point in community service.

N/A

n/a

NA

None

None.

sometimes too much to do

The campaigns are usually geared towards younger youth than we serve.

the only issue so far is that some of the campaigns are unclear for action steps after the monthly meeting. I have seen that some meetings happen after the announcement but I have not been clear of how to participate in them or what actions to take.

time

time

time

Time & money!

Time and energy demands

Time to devote to the work we do as a community and balancing that with the time needed to deliver our organization's mission.

# What else can CSN do for you and your organization?

---

# If you selected Action Groups or Trainings, what types of action groups or trainings would be important to our community?

---

Food Security (note: United Way has organized a few meetings around this topic area and so you could coordinate with them)

How to become a Trauma Informed Community

How to hold effective meetings    Identifying and Treating Autism in Nevada County- Increased Collaboration on this issue, as we are seeing a lot more youth with behaviors stemming from Autism.

I enjoy the groups hosted by an agency to learn what services they provide and what population they are serving.

identifying shared goals, working on a community assessment, connecting with county/city services

just relevant and appropriate trainings during the local CSN meeting time so we get the most out of our time and we already go there so it cuts down on additional meetings and trainings.

na

Safety and boundaries with high needs families.

Trauma informed care, Cultural Responsiveness, ACEs etc.

Trauma Informed Mindful Movement & Self Care!

Who are we serving, and how do we serve them—the lectures are good. Hard to miss sometimes.

Working toward becoming a trauma-informed, resilience-building community across all sectors and organizations.

Youth Development

# Please let us know any other comments.

---

I follow you regular announcements on internet.

I'm not approved to officially represent my agency, but appreciate this opportunity to share my ideas. Thank you!

Keep up the great work!

Our meetings are always informative and I'm grateful to be able to attend and participate

Thank you for all you do in Nevada County! We wish we were closer and could participate more. We participate as much as we can. Please reach out to us if you would like to collaborate more on the topic of developmental disabilities and community inclusion.

Thank you for all you do in our community! Always find the information you put forth to be helpful to our community as a whole.

Thank you for all you do.

Thank you for asking!

Thank you for what you do.

# Great information; what happens next?

---
