- Presentation on Diversity, Equity, & Inclusion with Healthy Outcomes from Positive Experiences (HOPE)

Diversity is people are different circumstances are different for everyone diversity is important to learn and grow

Equity is very different from equality, equality is the notion that everyone gets the same thing regardless of need equity is based on need, what you need is different than what someone else may need.

Inclusion is making sure the door is open for everyone, regardless of differences (gender, identity, race, ect.)

Knowing what is inclusion is important so that we are not excluding anyone based on their diversity

Diversity can be any difference that would cause someone to have a bias
